

DO NOT allow anyone to violate our state's do no call listing or I will forward all my calls from them to your business line so you can deal with, they are annoying and take away from my personal freedoms. I pay for the phone line, I should every right to restrict who calls me by a do not call listing. The FCC is already taking away all our personal freedoms, If you allow this change, this will be yet another indication you are are not really representing people but following directives of money trails.
